

Moving UP

Let's go
on an
adventure

EYFS – Nursery

Water, Water Everywhere!

We're Going on an Adventure!

During the summer term our topics are Water, Water Everywhere and We're Going on an Adventure! The children will be finding out about different types of water bodies and experimenting with water and ice. They will begin swimming lessons after May half-term.

Following on, we will focus on discovering a range of transport types before embarking on their own transition adventures in school. Children will begin to spend more time visiting Reception in small groups to familiarise themselves with their new learning environment. **When the weather gets warmer, children do take cardigans and jumpers off, please check that they are labelled.**

On very hot days sunscreen should be applied before coming to school and a named sun hat provided.

During the spring term children planted a sunflower seed during the Mother's Day play and stay. Please send any photos of your sunflowers to

parents@wilkinsonprimaryschool.co.uk

Wolverhampton Art Gallery will be exhibiting some of our EYFS sunflower artwork.

More information about this will follow.
